

The Neural Network: Katelyn Fu, Rahi Dasgupta, Edwin Lin

What, if any, insights did you get from your PM meeting?

- Ella talked about advice on webscraping and a direction to approach analyzing our dataset with, such as organizing by release year.

What challenges arose this week?

- It was hard scheduling meetings this week

What went well?

- Doing the Continuous Integration went well because the given instructions made it easier to understand and complete

For each member: what were your main takeaways from the “breaking assumptions” exercise?

- Katelyn: I should be more open about my thoughts and try to understand things from other people’s point of view
- Rahi: I should be more open about my thoughts
- Edwin: I should try to learn more about others.

For the group: what, if anything, will the group take away from “breaking assumptions”?

- The group could be more communicative with each other about everyday things and CDS-related things
